

# KELLY SIGLER

Horsemanship For Your Journey

## Spook and Survive Clinic

October 22, 2016

Peacock Ridge, Ocala FL

**T**his Clinic begins with a discussion on why horses spook, and how their spirit level and horsenality impact on how they react.

We will continue on the ground, with our horses online. A variety of stimuli in the form of scary objects and scenarios will be presented to the horses. From the safety of being on the ground learn how to introduce your horse to these objects and how to build their confidence.

Then encounter additional scary obstacles from the saddle. And learn the basic Natural Horsemanship skills needed if your horse spooks when you are in the saddle. In an Introduction to Rider Biomechanics, Kelly will show you how important it is to ride correctly so you stay in the saddle if your horse does spook!

This will prepare you for what to do, how to do it, and how to stay safe and survive if your horse does indeed spook.

**Location:**  
Peacock Ridge  
99 NW 117th Street  
Ocala, Florida
