*Hours:*  
9:00AM to 4:00PM

*Overnight Accommodations*  
*Horses:* \$20

*Contact:*  
Lesley Wooten  
lesleywooten@gmail.com

**T**his full day Clinic begins with a discussion on why horses spook, and how their spirit level and horsenality impact on how they react. Kelly will review each horsenality and explore in general terms their potential responses.

We will continue on the ground, with our horses online. A variety of stimuli in the form of scary objects and scenarios will be presented to the horses. From the safety of being on the ground learn how to introduce your horse to these objects and how to build their confidence.

Then encounter additional scary obstacles from the saddle. And learn the basic **Natural Horsemanship** skills needed if your horse spooks when you are in the saddle. In an **Introduction to Rider Biomechanics**, Kelly will show you how important it is to ride correctly so you stay in the saddle if your horse does spook!

This will prepare you for what to do, how to do it, and how to stay safe and survive if your horse does indeed spook out on the trails.

This clinic is great for any level Parelli student or someone new to the program who wants to see how Parelli can help them
