

KELLY SIGLER

Horsemanship For Your Journey

Spook and Survive Clinic

June 4 - 5, 2016

Lucia Farm, Lovettsville VA

This two day clinic begins with a discussion on why horses spook, and how their spirit level and attitudes impact on how they react to perceived danger.

We will continue on the ground, with our horses online. A variety of stimuli in the form of scary objects and scenarios will be presented to the horses. From the safety of being on the ground learn how to introduce your horse to these objects and how to build their confidence.

Then encounter additional scary obstacles from the saddle. And learn the basic Horsemanship skills needed if your horse spooks when you are in the saddle. In an Introduction to Rider Biomechanics, Kelly will show you how important it is to ride correctly so you stay in the saddle if your horse does spook!

Including Parade Preparation of the upcoming 4th of July Parade, you will learn what to do, how to do it, and how to stay safe and survive if your horse does indeed spook.

On Sunday we will hack out and encounter a variety of spooky obstacles such as bikes, loud noises, tarps, and other frightening things.
